

EMERGENCY CODE BLUE PHONES

Purpose, Use and Location

PURPOSE and USE

An Emergency Code Blue Phone is a safety device provided by the College. There are a total of 10 code blue phones placed in readily available areas on campus for easy accessibility.

Each code blue phone has a red emergency button, that when pressed, will automatically dial the Security Dispatcher, who will dispatch a security officer to the activated phone for assistance. An open line on any emergency phone will activate a priority response from an officer. Code Blue Phones have a blue strobe light on the top of a 12.75" diameter, 9' ½" burgundy Pedestal with the word "EMERGENCY" in white letters.

Emergency Code Blue Phones in the parking garage (21st and Meharry Blvd) are located in the vicinity of the elevators on level one, two and three. Code blue phones located in parking lots are placed near the center of the lot.

Cooperation is essential to help maintain the integrity of the emergency code blue phone system. These phones should be used only for actual or perceived emergency situations.

All emergency phones are tested for functionality on a regular basis. However, in the unlikely event there is an emergency phone malfunction, please contact the Security Department at 615-327-6254 to report the need for repairs.

An emergency response can also be activated by dialing 911 (local police) from any campus phone. Cell phone users can also dial 911 for off-campus emergencies. Callers should be prepared to state the location from which they are calling.

LOCATIONS

Phone #1 - Center of Parking Lot-A (corner of D.B. Todd Blvd and Albion)

Phone #2 - NE corner of the LRC (on Albion Street)

Phone #3 – Center of Parking Lot-F (21st and Morena Street)
